*Compiled by The Ghost (@TheGhostwToast) • Updated October 28, 2026 • 100% OpSec-Scrubbed Public Reference Edition*

## I. Verified Identity, Corporate Shell & 'Entertainment Services' Trademark

- **Verified Legal Name & Age:** Gene Christopher Slusser (born 1955, age 71), residing at 17564 E. Greenwood Circle, Aurora, CO 80013, with prior residence in Ceiba, PR 00735 (adjacent to former U.S. Naval Station Roosevelt Roads). Corroborated via Department of the Navy Bureau of Naval Personnel (BUPERS) FOIA confirmation and Colorado property/voter records—debunking the internet rumor that his legal surname was 'Cosense' (a misreading of his martial-arts title 'CoSensei Gene').
- **U.S. Navy OMPF Archival Status:** BUPERS confirmed that Gene Christopher Slusser's Official Military Personnel File (OMPF) predates mid-1990s electronic digitization ( reflecting pre-mid-1990s service) and is physically archived at the National Personnel Records Center (NPRC), 1 Archives Drive, St. Louis, MO 63138 (NPRC records request, number withheld).
- **Corporate Monetization Vehicle:** Blessed For Service, LLC (Colorado Secretary of State Entity ID #20211817473, formed September 13, 2021, registered office 7887 E. Belleview Ave, Suite 1100, Denver, CO 80237; principal mailing address PO Box 441218, Aurora, CO 80044). Operates genedecode.org and blessedforservice.org, charging followers $7/month or $77/year for gated 'Decode' intel briefings while promoting unlicensed 'Quantum' wellness and water devices priced between $1,950 and $6,300.
- **Federal Trademark Admission (USPTO Reg. #7,728,230):** While presenting his broadcasts to paying subscribers as literal military/intelligence sitreps, Slusser's enterprise registered the federal trademark 'GENE DECODE' with the U.S. Patent and Trademark Office under International Class 041: Education and Entertainment Services.

**GENE DECODE (GENE CHRISTOPHER SLUSSER): 10 'INTEL' CLAIMS VS. PRIMARY RECORDS**

Entity: Blessed For Service, LLC (CO #20211817473) • USPTO Reg. #7,728,230 ('Entertainment Services') • NPRC records request (number withheld)

Monetization: $7/mo ($77/yr) Paid Content on genedecode.org / blessedforservice.org • Cross-Referenced by The Ghost's Substack (@TheGhostwToast)

| CLAIM CATEGORY | WHAT 'GENE DECODE' PRESENTS AS FACT | WHAT VERIFIED PRIMARY & MILITARY RECORDS SHOW |
|---|---|---|
| 1. Aug. 1992 '30-Minute Death' & Holy Covenant | Claims he literally died for ~30 minutes in August 1992, met God, took a 'Holy Covenant,' and returned with supernatural 'downloads' about how Earth is secretly run. | **Zero medical records, hospital logs, or witnesses exist. Furthermore, his releasable U.S. Navy OMPF (NPRC records request, number withheld) establishes his exact active-duty assignment status and separation timeline in August 1992.** |
| 2. Innate Psychic & Remote-Viewing Abilities | Asserts as literal fact that he was born with elite remote-viewing and psychic abilities that guided his life and military intelligence work. | Zero controlled testing, third-party verification, or declassified DoD/CIA Project Stargate rosters list Gene Christopher Slusser. His USPTO Trademark #7,728,230 registers 'GENE DECODE' under Class 041 (Entertainment Services). |
| 3. 5,000–10,000 'Cabal' DUMBs (Adrenochrome, Cloning & Portals) | Claims 500+ U.S. and 5,000–10,000 global Deep Underground Military Bases (DUMBs) run by the 'cabal' for child trafficking, adrenochrome harvesting, cloning, and portals, allegedly mapped via 'MI6 contacts.' | Zero satellite, geotechnical, excavational, or declassified military evidence. Excavating thousands of continental-scale subterranean cities would require billions of tons of spoil disposal visible to every commercial satellite. |
| 4. Hypersonic MagLev Tunnels (D.C. to Tokyo in ~30 Minutes) | Presents as operational fact a global network of subterranean hypersonic MagLev vacuum tunnels connecting DUMBs (e.g., Washington, D.C. to Tokyo in 30–32 minutes). | Covering ~6,760 miles from D.C. to Tokyo in 30 minutes requires a sustained speed of ~13,500 mph (Mach 17.6) across active tectonic plate boundaries (San Andreas, Ring of Fire, Japan Trench). Zero engineering or seismic evidence exists. |
| 5. Special Forces + Extraterrestrials Clearing 90% of DUMBs | Claims U.S. Special Forces allied with extraterrestrials and 'Inner Earth' groups have cleared ~90% of cabal DUMBs, marked by earthquakes, rescuing genetically altered children who cannot live on the surface. | USGS and IRIS global broadband seismographs publicly distinguish tectonic fault slip (shear waves) from underground explosions (compressional P-waves). Zero missing-persons, seismic, or DoD records corroborate a single claim. |
| 6. Father at Martin Marietta (1964) & Breathable Mars/Moon Bases | Claims his father worked at Martin Marietta in 1964 and told him of covert U.S. bases on the Moon and Mars with an atmosphere supporting vegetation and animal life. | In 1964, NASA's Mariner 4 had just launched (flyby July 1965), proving Mars has a ~6 millibar $CO_2$ atmosphere (less than 1% of Earth's, fatal to unpressurized plant/animal life). Martin Marietta built the Viking landers a decade later (1975–1976). |
| 7. 2019 Notre Dame Fire Ritual & Cloning Jesus for the Antichrist | Claims the April 15, 2019 Notre Dame Cathedral fire was an occult ritual to open a portal and clone Jesus from DNA on the Crown of Thorns relic so the Antichrist could inhabit the clone on the roof. | French judicial and forensic investigators (Brigade Criminelle) conducted a 5-year physical investigation concluding the fire was accidental (electrical short or smoldering cigarette during restoration). Zero forensic evidence supports cloning rituals. |
| 8. Real-Time 'White Hat' Alliance, NESARA/GESARA, QFS & Clones | Delivers paid 'intel sitreps' claiming insider access to 'White Hat' military tribunals, NESARA/GESARA payouts, the Quantum Financial System (QFS), body-double clones, and the Galactic Federation. | Every concrete date and structural claim has failed to materialize. Monetized at $7/mo ($77/yr) on genedecode.org / blessedforservice.org via Blessed For Service, LLC (CO Entity #20211817473) alongside $1,950–$6,300 ' Quantum Healing' devices. |
| 9. Buried 'Space Ark' Under Ukraine & Draco Reptilian Rites | Claims ancient extraterrestrial 'space arks' buried under Ukraine are a primary driver of the Russia-Ukraine war, and that Draco reptilians use human supersoldiers for warrior rites of passage. | Presented via purported 'downloads' and anonymous contacts with zero archaeological, geological, or military corroboration. |
| 10. Early-1990s Pearl Harbor / Ford Island SSBN Nuclear Missile Offload | Claims that while stationed in the Navy in Hawaii in 1990-early 1990s, he personally witnessed SSBNs offloading nuclear ballistic missiles at Pearl Harbor / Ford Island in a secret U.S.-Russia deal. | **Directly contradicted by U.S. Navy nuclear weapons infrastructure: Pacific Fleet SSBN Trident ballistic missiles are loaded/offloaded exclusively at Strategic Weapons Facility Pacific (SWFPAC) in Bangor, WA—never Ford Island. The public Sept. 1991 Presidential Nuclear Initiatives removed tactical weapons from surface ships/SSNs, and his OMPF (NPRC records request, number withheld) will verify his exact rate, security clearance level, and duty stations.** |

## II. Forensic Audit of Gene Decode's 10 Prominent 'Factual' Claims

Across hundreds of broadcasts on NinosCorner.tv, Rumble, and genedecode.org, Gene Christopher Slusser presents the following ten claims not as speculation or fiction, but as established fact. ## III. What the Releasable U.S. Navy OMPF Summary Tests Directly

While a standard military personnel file does not adjudicate supernatural claims (like remote viewing or buried space arks), the releasable portions of Slusser's U.S. Navy OMPF at the National Personnel Records Center (dates of active duty, rank/rate, job classification/NEC codes, duty stations, and awards) directly test the anchor claims of his biography:

1. Active-Duty Dates vs. August 1992 'Death' & Early-1990s Pearl Harbor Narratives: Whether Slusser was even on active duty in August 1992 or stationed at Pearl Harbor in 1990–1992.
2. Navy Enlisted Classification (NEC) / Rate vs. SSBN Strategic Weapons Access: Whether his actual Navy rating involved submarine strategic weapons handling or whether he worked in a conventional support rate (e.g., at Naval Station Roosevelt Roads in Ceiba, Puerto Rico, matching his prior Ceiba, PR 00735 residential history).
